Definitions

- the **GDPR** (General Data Protection Regulation) is the new EU Data Protection Regulation;
- **Data processing**: any set of operations or operations performed in an automated or non-automated way on personal data or files, such as collection, recording, systematization, distribution, storage, transformation or alteration, query, insight, use, communication, transmission, distribution or other means by making available, coordinating or linking, limiting, deleting or destroying;
- **Data processor**: natural or legal person, public authority, agency or any other body which processes personal data on behalf of the controller;
- **Personal data**: any information relating to an identified or identifiable natural person (s); identifies a natural person who, directly or indirectly, in particular by reference to an identifier, such as name, number, positioning data, online identifier or one or more factors relating to the physical, physiological, genetic, intellectual, economic, cultural or social identity of a natural person identified;
- **Data controller**: natural or legal person, public authority, agency or any other body that determines the purposes and means of the processing of personal data, either alone or in conjunction with others; if the purposes and means of data processing are defined by EU or Member State law, the specific aspects of the appointment of the controller or the controller may be determined by Union or national law;
- **The consent of the data subject**: a voluntary, concrete and clear indication of the will of the data subject by which he or she expresses his / her consent to the processing of the personal data affecting him or her by means of an act expressly expressing his / her affirmation;
- **Data Protection Incident**: A breach of security that results in accidental or unlawful destruction, loss, alteration, unauthorized disclosure, or unauthorized access to personal data transmitted, stored or otherwise handled.
- **Consignee**: any natural or legal person, public authority, agency or any other body with which personal data are disclosed, whether or not a third party. Public authorities which have access to personal data in accordance with Union or Member State law in the context of a specific investigation shall not be considered as a recipient; the management of such data by these public authorities must be in accordance with the applicable data protection rules in accordance with the purposes of the data processing;
- **Third party**: any natural or legal person, public authority, agency or any other body which is not the same as the data subject, the controller, the data processor or the persons authorized to process personal data under the direct control of the controller or the processor.

Guidelines for data management

The Data Controller declares that it handles the processing of personal data as set out in the Data Management Information and adheres to the requirements of applicable legislation, with particular regard to:

The processing of personal data must be carried out in a lawful and fair manner and in a transparent manner for the data subject.

Personal data may only be collected for specified, explicit and legitimate purposes.

Treating personal data has the aim must be appropriate and relevant, and may just be the necessary degree.

For personal information they must be accurate and up to date . Inaccurate personal data must be deleted immediately.

The storage of personal data for a longer period of time may only take place if the storage is for public-interest archiving for scientific and historical research purposes or for statistical purposes.

The processing of personal data shall be carried out in such a way as to ensure, by applying appropriate technical or organizational measures, the security of personal data, including unauthorized or unlawful processing, accidental loss, destruction or damage.

The principles of data protection should apply to all information relating to an identified or identifiable natural person.

Important data management information

The purpose of data management is to enable the service provider / data manager to provide the site's viewers with adequate additional services during the operation of the website.

The legal basis for data processing is the consent of the person concerned.

The persons involved in data management are the users of the website "Booking" or "Contact" forms.

Duration of data management and deletion of data. The duration of data management is always a function of the specific user goal, but the data should be deleted immediately if the originally set goal has already been achieved. Your consent to data management may be withdrawn at any time by the person concerned by letter sent to the contact email address. If there is no legal impediment to the deletion, your data will be deleted in this case.

The controller and its employees are entitled to know the data.

The person concerned may request from the controller access, rectification, erasure or restriction of personal data relating to him or her and may object to the processing of such personal data and the right of the data subject to portability.

The person concerned may withdraw consent to data processing at any time, but it does not concern a withdrawal before implemented on the basis of the consent of the data management.

The person concerned may exercise his right to lodge a complaint with the supervisory authority.

If the person concerned wishes to use the benefits provided by the "Contact" and "Booking" forms on the website, that is, he wants to use the website as a service store in this direction, it is necessary to provide the requested personal data. The person concerned is not obliged to provide personal data and has no adverse consequences for the non-provision of data. However, it is not possible to use some of the features of the website without providing personal information.

The person concerned shall have the right, at his request, to rectify or supplement inaccurate personal data relating to him without undue delay.

The person concerned shall have the right, at his / her request, to delete the personal data relating to him or her inaccurately without undue delay, and the controller shall delete the personal data relating to the data subject without undue delay, to the extent that the data processing has no other legal basis.

Modifications or deletions of personal data may be initiated by e-mail, telephone or mail at the above-mentioned contact options.

Data storage method: electronic.

Google Analytics

Our website uses Google Analytics.

Google Analytics uses internal cookies (cookies) to compile a report on the behavior of the users of the website.

Google will use the information on behalf of the web site operator to evaluate how users use the site. As an additional service, it prepares reports related to website activity for the website operator.

Data is stored in encrypted form on Google's servers to make it harder and to prevent misuse of the data.

Here's how to disable Google Analytics. Quote from this page: *Website users who do not want Google Analytics to report on their data can install the Google Analytics opt-out browser extension. The extension prohibits Google Analytics JavaScript (ga.js, analytics.js, and dc.js) from sending information to Google Analytics system. The browser extension can be used in most newer browsers. The Google Analytics opt-out browser extension does not prevent data from being sent to the site itself and other web analytics services.*
